DETAILED ACTION
Status of the Application

Acknowledgement is made of the receipt of the Response to the Restriction Requirement (Election of Group I) filed 06/12/02.

Claims 1 and 6-20 are pending. Claims 1 and 6-20 are rejected.

Claims 5 and 21-30 are withdrawn from consideration as being directed to non-elected subject matter. Claims 2-4 have been cancelled.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 6-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Hampton *et al.* (US Pat. No. 5, 089,270) (collectively, "Hampton").

Hampton discloses a multi-colored, multi-characteristic, bi-layer tablet having a first and second different coloring agent wherein the tablet is uniformly coated with film forming substances (see reference column 2, lines 30-55); (col. 3, lines 5-38); (col. 5, lines 37-49); examples and claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1 and 6-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hampton et al. in view of Berta (US Pat. No. 4, 820,524).

Hampton teaches a multi-colored, multi-characteristic, bi-layer tablet having a first and second different coloring agent wherein the tablet is uniformly coated with film forming substances (see reference column 2, lines 30-55); (col. 3, lines 5-38); (col. 5, lines 37-49); examples and claims. Hampton teaches various forms of cellulose that can be employed with the tablet, such as methylcellulose, ethylcellulose and

Art Unit: 1615

hydroxypropyl methylcellulose. In addition, the tablet is covered with a clear coating material, such as gelatin. The two-color tablet can employ any color combination and can be formed in multiple segments of different sizes.

Hampton while teaching a coated, two-colored tablet does not explicitly teach a transparent or semi-transparent tablet.

Berta teaches a solid medicament, such as a caplet, having gelatinous coatings and capable of providing two or more different colors, wherein coloring can be added to the coatings to produce opaque or transparent colors (see reference column 9, lines 1-7).

Therefore it would have been obvious to one of ordinary skill in the pharmaceutical art at the time the invention was made to formulate a solid coated preparation wherein colors can be made transparent because these colored medicaments are necessary to give a specialty product a distinctive appearance. The expected result would be a multi-colored or transparent coated caplet having an improved, distinct appearance, as similarly desired by the applicant.
